

SUSTAINABLE LITHIUM PRODUCTION WITHOUT EVAPORATION PONDS

Experienced team driving finance, commercialization, and scaling of industrial solutions.

VISION

Be the trusted global standard for **sustainable, economically efficient** lithium resource development without evaporation ponds.

PROBLEM

Traditional lithium extraction: **Pump brine into evaporation ponds**, but it's unsustainable, inefficient, and loses 50%-60% of the resource. Slow process takes 9+ months.

AcQUA SOLUTION

Eliminates toxic evaporation ponds with **field-proven, modular, patent-pending technology**: Enhances lithium recovery, minimizes water usage, and accelerates processing from months to days.

INVESTMENT HIGHLIGHTS

Expansive pipeline targeting \$250M in sales with leading mining & energy firms.

Positioned in a **multi-billion \$ market** poised for 10x growth by 2035.

Pioneering **patent-pending technology** offers sustainable alternative to evaporation ponds.

Customer validation underway with multiple contracts in progress.

DOE award-winning technology (\$1.55M).

MARKET SIZE

TAM Projected (2035)

\$133 Billion

TAM Current (2024)

\$14 Billion

350,000-ton LCE/year current lithium brine production

Additional 3.3 million ton LCE/year demand by 2035

FINANCIAL SNAPSHOT

INSIDER OWNERSHIP
57%

ISSUED & OUTSTANDING
83.5 M

MARKET CAPITALIZATION
\$60M

WHY AcQUA™

- ✓ customer validation
- ✓ scale of deliverability
- ✓ sustainability
- ✓ field proven technology
- ✓ patent-pending value chain coverage

EXECUTIVE MANAGEMENT TEAM

- Scott Taylor**, CEO & Director
- Joe Fuqua**, COO
- Michael Westlake**, President & Director
- Christopher A. Green Ph.D.**, CTO
- Dino LaCapra**, CDO
- Gabe Segal**, VP - Strategy & Finance

BOARD OF DIRECTORS

- Scott Taylor**, CEO & Director
- Martin Corredera Silvan**, Director
- Michael Westlake**, President & Director
- Fredrik Klaveness**, Director
- Kevin McKenna**, Director
- Jennie Choboter, CPA-CA** CFO, Director
